

Good news

VENTURES

Good News Ventures is an early-stage, industry agnostic venture capital firm based in Toronto with 35+ portfolio companies. We invest in companies in all software categories including AI/ML, IoT, infrastructure, blockchain and quantum computing.

We are looking for full-time Summer Interns to join our close knit team, where you will be a key member and be involved in all aspects of the fund.

Primary Responsibilities

- Manage deal flow by sourcing, filtering, and shortlisting various prospective companies from various sources such as demo days and hackathons
- Prepare investment memos
- Carry out due diligence for filtered companies
- Communicate with internal and external stakeholders
- Manage our online and offline presence
- Manage and develop internal resources
- Other projects will be available/required based on interest/situation

What we are Looking for:

- Previous experience at a university venture capital fund/club
- Passion for venture capital
- Excellent communication skills
- Knowledge of/interest in technology
- High integrity, strong work ethic, detail-oriented, and self-motivated
- Skilled at multitasking and prioritization in a fast-paced team environment with quick turnaround

At GNV, we value our inclusive team culture. Interns will be given the opportunity to contribute significantly to the core operations of the fund. Overall, this is an excellent opportunity to join a tight-knit team and gain experience in venture capital, technology, and entrepreneurship.

Please email your cover letter, resume, and unofficial transcript to brent@goodnewsventures.com by **Sunday, February 6th**. Please title your email "GNV Application - FirstName LastName".

We look forward to hearing from you,
The Good News Ventures Team
